THROUGH AUTOMATION

<http://www.dyertech.com>

- **Low Cost, High Performance Industrial Control Equipment**
- Productivity3000 PAC/PLC with unmatched built-in communications
- PLCs including 16-bit analog and Ethernet communications
- NEMA Enclosures, Centsable® sensors, Terminator I/O, C-More Panels
- Think & Do PC control software, DINnector terminal blocks
- GS and DURApulse A/C Drives, Marathon and Ironhorse electric motors
- Fuji molded case circuit breakers
- Hammond transformers
- Sure-Servo Systems, Process Controllers, Stack Lights

- **Industrial Information Management Software**
- Client/Server HMI Productivity software; Licenses from 75 to 18,000 I/O
- Graphics Builder, Standard I/O Device Drivers, On-Line Reports, Networking, CiCode Programming Language
- Operator and Manager Nodes. Easy VB and C/C++ Integration.

- **UL Approved control systems**
- Control panel design and documentation
- Turn-key delivery of complete systems
- HMI and PLC programming

- **WMZS Series Supplemental protection**
- WMZT Miniature Circuit breakers
- Enhanced 50 Series Photoelectric Sensors
- HT800 Series pilot devices
- E26 incandescent and LED Stacklights

- **Global Leader in Infrared Cameras**
- Affordable **InfraCAM SD** with 3.5+LCD; stores in JPEG format
- Ultra compact **T400** with 320x240 high resolution thermal images and FLIR FUSION!
- Compact and rugged **ThermoVision A series** with FireWire connectivity

- **Thin finger and wide finger design wiring duct**
- Dinosaur flexible wiring duct
- Duct separators, wire retainers and marking tags
- Spiral wrap and braided sleeving

- **Leading edge industrial network solutions**
- Profibus products including PC and PLC interface, cordsets, gateways and diagnostic tools.
- DeviceNet products including PC and PLC interface cards, network analyzers and USB interface modules.
- Brad Harrison cordsets and industrial Ethernet products.

- **Wide spectrum of wire connection products**
- DIN Rail Mounted Wiring/Connection Systems
- Power supplies, signal conditioners, relays and surge protection
- Custom Rail Assemblies: order 1 part number

DYER TECHNOLOGY APPLICATION ENGINEERING

- Start Up Assistance
- Training
- Field Service
- HMI and PLC Programming
- Custom Software

**PARTNERS...
IN PRODUCTIVITY.**

THROUGH AUTOMATION
<http://www.dyertech.com>

Machine and Process Control

- Automation Direct PLCs
- Complete control system integration and control panel design
- Think & Do PC Control Software

HMI and SCADA

- C-More and C-More Micro operator Interface Products
- Citect Industrial Information Management Software
- Think and Do control software using flowchart logic and easy SQL interface
- Atlas industrial grade LCD monitors

Industrial Networks and Connectivity Solutions

- RJ Lnx and Brad Harrison network media
- Terminator I/O with connections to Devicenet, Profibus and Modbus
- Molex Interface cards for Devicenet, Profibus, Control-Net and Data Highway

Temperature and Process Monitoring and Control

- Fuji temperature controllers
- FLIR Systems thermal imaging products
- Dyer Temp single-point measurement IR devices

Motion Products

- Marathon Motors
- Sure step stepping systems and Sure Servo servo systems
- GS1, GS2 and DURApulse drives

Wiring Management Solutions

- Hubbell Wiegmann NEMA enclosures
- Weidmuller DIN rail mounted connection systems
- Iboco wire duct, spiral wire wrap and flexible duct

Power Products

- RHINO Power Supplies
- Weidmuller Power Supplies
- Molded case circuit breakers
- Cutler-Hammer powerline filters

Sensing Products

- Limit Switches
- Encoders by Koyo
- Proximity, photoelectric and fiber optic sensors

Dyer Technology has delivered industrial automation products and services since 1978 to facilitate customer productivity improvements.
